

Prairie Ag Partners is conducting a patron survey on the possibility of offering a type of condo storage for our patrons. This is a nonbinding commitment to explore what interest is out there. Money raised could be used for additional storage, dumping, drying and rail capacities. Storage purchased could be used at any or all Prairie Ag Partners locations. The estimated price would be \$2.00 to \$2.50 per bushel.

Condo Storage Advantages:

- Ownership of a hard asset (Saleable property)
- Return on investment
- Tax depreciation
- No minimum delayed price charges
- Only handling grain once.(Saving handling and trucking costs)
- No road postings to deal with.
- Saves on shrink
- No quality deterioration (No monitoring grain bins)
- Grain is immediately available for cash sale

Name: _____

Condo Storage Bushels that I may be interested in purchasing. _____

All returned surveys will be entered into a drawing for four \$50.00 gas cards.
